PROFILE

Enterprise Architect with over 15 years of experience, primarily in the Banking and Insurance sectors. I have contributed to initiatives supporting architectural evolution and IT governance through application mapping, reference and target architecture definition, and the introduction of quality-oriented, technology-risk-mitigation processes. Solid expertise in microservices architecture, enterprise integration, CI/CD, and end-to-end observability/monitoring. I took a Machine Learning-based fraud-detection system to production, introducing and industrializing the MLOps methodology, and I have taken part in initiatives to introduce Generative AI into the software lifecycle and other business areas, with a focus on industrialization and reference-architecture definition. I coordinate multi-project technical teams, from working solo up to around 15 people, and take part in my company's internal strategic governance forum.

WORK EXPERIENCE

- **2015 – Present** **Enterprise Architect / Advisor**
Imola Informatica S.p.A. — Imola (BO), Italy
 - Review and definition of Enterprise Architecture processes and the application map of the entire information system (CMDB)
 - Support for IT Governance and IT Risk processes
 - Support for the definition of the target microservices architecture
 - Took a Machine Learning-based fraud-detection system to production, introducing and industrializing the MLOps methodology
 - Design and review of architectures for Machine Learning and Artificial Intelligence applications; involvement in AI-adoption initiatives across multiple business areas, with a focus on industrialization and reference architectures
 - Architectural assessments; coordination of multi-project working groups at clients (from solo consultant to ~15 people)
 - Support for internal company processes (HR, management control, invoicing and timesheet reporting) and participation in the internal strategic governance forum

Technologies, products & frameworks: Java/J2EE, Spring 4.x, SpringBoot, Swagger/OpenAPI, Oracle WebLogic, Oracle SOA Suite, Oracle Service Bus, Oracle Database, IBM MQ, Splunk, Elasticsearch

Tools: Git, Maven, Jenkins, SonarQube, Docker/Docker Compose, Kubernetes, Terraform, Ansible
- **2014 – 2015** **Enterprise Architect**
Imola Informatica S.p.A. — Imola (BO), Italy
 - Design and development of reusable architectural components
 - Design and development of Maven tools and plugins for building and deploying proprietary application components (Oracle Service Bus, Oracle SOA Suite)
 - Design and development of SonarQube plugins for guideline validation
 - Support for setting up Continuous Integration infrastructure; definition of Architectural Guidelines and Development Handbook
 - Definition of the reference architecture for project initiatives and validation of technical analyses
 - Support for Problem Solving and Problem Determination activities; development of monitoring solutions

Technologies, products & frameworks: Java/J2EE, Spring 3.x, Oracle WebLogic, Oracle SOA Suite, Oracle Service Bus, Oracle Database, IBM MQ, Splunk

Tools: Git, Maven, Jenkins, Chef

- **2013 – 2014** **IT Architect**
Imola Informatica S.p.A. — Imola (BO), Italy
 - Analysis and design of software solutions in the banking sector
 - Development of prototypes and reference implementations
 - Support for the definition and implementation of the near real-time transaction reporting and balance reconciliation process

Technologies, products & frameworks: Java/J2EE, Oracle WebLogic, Oracle SOA Suite, Oracle Database, IBM MQ

Tools: Git, Maven, Jenkins

- **2012 – 2013** **IT Architect**
Imola Informatica S.p.A. — Imola (BO), Italy
 - Design and development of banking-sector applications
 - Definition of the software lifecycle management toolchain
 - Infrastructure automation

Technologies, products & frameworks: Java/J2EE, Groovy, Apache Servicemix, Apache Tomcat, Oracle WebLogic, Oracle SOA Suite, Oracle Database

Tools: Git, Subversion, Maven, Puppet, Jenkins

- **2011 – 2012** **Architect / Developer**
Imola Informatica S.p.A. — Imola (BO), Italy
 - Design and development of an Enterprise Architecture solution based on Semantic technologies for describing the information system
 - Definition of BPEL/BPM development guidelines on Oracle SOA Suite

Technologies, products & frameworks: Java/J2EE, PHP, Apache ActiveMQ, Mediawiki, SPARQL, Semantic Web

Tools: Subversion, Maven, Jenkins

- **2010 – 2011** **Architect / Developer**
Gruppo Euris S.p.A. — Trieste, Italy
 - Development and maintenance of Java/J2EE applications in the insurance sector
 - Production support; integrations and UI changes to quoting applications
 - Data flow integration; development of PL/SQL stored procedures on Oracle databases

Technologies, products & frameworks: Java/J2EE, Oracle Database, PL/SQL, Vitria Workflow Engine

Tools: CVS, Eclipse Platform

- **2007 – 2010** **Architect / Developer**
eNia s.r.l — Isernia, Italy
 - Design and development of Java/J2EE applications in the financial sector
 - Development of web-based graphical interfaces
 - Design and development of integration and scheduling platforms

Technologies, products & frameworks: Java/J2EE, Apache Tomcat, proprietary frameworks and middleware

Tools: Microsoft Visual SourceSafe, Eclipse Platform

- **2007** **Developer (Internship)**
IG Technology S.p.A. — Rome, Italy
 - Development of a web-based software application for managing internal services

Technologies, products & frameworks: Java/J2EE, JBoss, MySQL, Hibernate, Versant Object Database

Tools: Subversion, Eclipse Platform

EDUCATION AND TRAINING

- **2006 – 2007** **Master's Degree (1st level) in Web Technology**
University of L'Aquila — L'Aquila, Italy

UML Modeling, Advanced Databases, XML Technologies, Web Services, J2EE Applications, AJAX/DHTML Applications, LAMP Applications, Web Mining, Persistence Techniques

- **2000 – 2006** **Bachelor's Degree in Computer Science**
University of L'Aquila — L'Aquila, Italy

Thesis: *Porting UML models from IBM Rational Software Modeler to Charmy*

LANGUAGE SKILLS

Mother tongue: Italian

	Listening	Reading	Writing	Spoken Production	Spoken Interaction
English	C1	C1	C1	C1	C1

SKILLS

Enterprise Architecture

TOGAF, ITIL, ISO 38500, Cobit, Agile & Scrum, PMI, BIAN, BPMN, UML, ArchiMate, Reference & Target Architecture, Application Mapping & CMDB, Archi, Structurizr (C4 Model), Draw.io, Confluence

AI / ML

ML Solution Architecture, MLOps, Generative AI, AI adoption industrialization and governance

Software Development & DevOps

Microservice Architecture, REST API Design, Observability & Monitoring, CI/CD, Git, Jenkins, Maven, Docker & Kubernetes, Apache Airflow, SonarQube, Ansible, Terraform, Java/J2EE, Python, JavaScript, SQL/PL-SQL

Other skills

Microsoft Office, Object-Oriented Programming, Linux, Relational Databases, Unit Testing

PUBLICATIONS

2026 — *"Architecture as Code in Industry: A Multiple-Case Empirical Study"*

Authors: Pontillo Valeria; Bucaioni Alessio; **Carnevale Italo**; Di Salle Amleto; Manzoni Lorenzo; Pelliccione Patrizio; Sprotetto Francesco Maria

Published and presented at the 23rd IEEE International Conference on Software Architecture (ICSA) 2026, Amsterdam (26 June 2026), in collaboration with the Gran Sasso Science Institute and Mälardalen University.

PERSONAL INTERESTS

Sports and physical activity; technology and personal side projects; mountains (trekking, alpine and cross-country skiing — former competitive cross-country skier, with experience supporting ski-prep teams and organizing national and international races); the sea; restoring a vintage Vespa (1960s); outdoor countryside living, vegetable gardening.

DRIVING LICENCE

B (car), AM (moped/motorcycle)

PERSONAL DATA PROCESSING

I authorize the processing of the personal data contained in my curriculum vitae pursuant to Article 13 of Legislative Decree 196/2003 and Article 13 of EU Regulation 2016/679 concerning the protection of individuals with regard to the processing of personal data.
